

"Your Trusted IT Partner"

*Workstation, Server and Device Management that
Small Businesses Need in Today's Unsecured World.*

KEEP SOFTWARE PATCHED AND SECURE – We make sure your critical programs are patched and up-to-date.

OFF-HOURS MAINTENANCE – Regular disk cleanup, defrag and other routines run during off-hours.

BE ALERTED TO CRITICAL ISSUES – We get the jump on problems before they become bigger problems.

REMOTE AGENT READY AND WAITING – Our remote agent is always-on and running on your equipment.

PREMIUM ANTI-VIRUS INCLUDED – We monitor our Cloud-Managed anti-virus (Bitdefender or Webroot) all day, and resolve any issues immediately, without involving you, for free.

PROTECT YOUR BUSINESS DATA – We monitor the status of your local and Cloud backups daily, and resolve any issues behind the scenes, usually for **FREE**.

Our Managed Network program keeps your equipment secure and running at its best.

As Low as \$11.00/mo!
